DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-26 are rejected under 35 U.S.C. 102(e) as being anticipated by Litzow et al.

Litzow et al. shows, figure 3, a system and method for dynamic price setting (recalculating purchase pricing). There is a customer database 110, a vendor database 120 (catalog database) and a transaction database 130 (the examiner is considering all of these to a collective first database). There is a matching engine 150 and a means for entering incoming data (data processor or catalog data processor), which performs a systematic resolution of database records for predictive matching of consumers and offers. When an update approval has been achieved, the sale will be recorded in the transactional database (updating first database) There is an Xpensewise sevices module 110 (interface processor, bidirectional). Figure 4 shows a process at step 114 which, can determine inconsistent information and request more information (discrepancy received).

Response to Arguments

Applicant's arguments with respect to all claims have been considered but are most in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
